HAIR RESTORATIVE

IS, no doubt, the most wonderful discovery of the age in its progress, for it will restore, permanently, grey hair to its original hue, cover the head of the bald with a most luxuriant growth, remove all dandruff and itching, render the scurf and all cutaneous eruptions, such as scald head, &c., of no effect, as it by magic, nervous or periodical headache, make the hair soft, glossy, and wavy, and prevent the color perfect, and the hair from falling, to extreme old age.

The following is from a distinguished member of the medical profession:

Illegal Voters Look out!

It is the deliberate determination of the Republicans, of this city and vicinity, to PROSECUTE EVERY MAN WHO MAY BE GUILTY OF ILLEGAL VOTING at the coming election. Committees have been appointed to watch the polls for that purpose. tf

Get Home your Absent Voters!

Many of the Republican voters of Maine are now absent—at work either in Massachusetts or some other neighboring State.

Let the Republicans of every town MAKE early and EFFECTUAL PROVISION TO GET HOME EVERY ABSENT VOTER!

The Journal says the placard we alluded to in our paper of Saturday "was not posted up by the suggestion or knowledge of any responsible person connected with this office." Does the Journal deny that it was *printed* at the Journal office and that too with the knowledge and suggestion of some responsible person?

Hopkinton Gazette, Jr., is appointed Post Master of Goodnow's Corner, in Orrington.

Keep it before the People.

KEEP IT BEFORE THE PEOPLE that the Bangor Journal has admitted that "the Whigs and Democrats THINK ALIKE on the NATIONAL ISSUES involved in a Congressional election."

KEEP IT BEFORE THE PEOPLE that ABRAHAM SANBORN has pledged himself by accepting a nomination from Buchanan Democracy TO VOTE WITH THAT PARTY IN CONGRESS as he should be elected.

KEEP IT BEFORE THE PEOPLE that Abraham Sanborn would therefore vote AGAINST A CONGRESSIONAL PROHIBITION OF SLAVERY IN THE TERRITORIES.

KEEP IT BEFORE THE PEOPLE That Israel Washburn has always voted to prohibit slavery in the Territories—that he NEVER voted to establish it in any one of them, and that the Bangor Journal LIES when it makes a party charges him with so doing.

KEEP IT BEFORE THE PEOPLE that James Buchanan, Samuel Wells, and Abraham Sanborn are all pledged to the extension of slavery and to the support of the Cincinnati platform, by accepting the democratic nomination.

KEEP IT BEFORE THE PEOPLE that JOHN C FREMONT, HANNIBAL HAMLIN, and ISRAEL WASHBURN, JR., are opposed to the extension of slavery, and are in favor of administering the government according to the principles of Washington, Jefferson Clay, Webster and other illustrious American statesmen and statesmen.

KEEP IT BEFORE THE PEOPLE that the democratic national organ, the Washington Union DENOUNCES FREE LABOR and declares that the "FREE LABORING MEN of Kansas are a MISERABLE MERCENARY BAND, RABBLE, who have been transferred like SO MANY CATTLE to that country!"

KEEP IT BEFORE THE PEOPLE that the democracy of Maine have called SLAVE HOLDERS from the South to teach Maine freemen fidelity!

KEEP IT BEFORE THE PEOPLE that the Southern national democracy now claim that "THE PRINCIPLE OF SLAVERY IS RIGHT, natural AND NECESSARY AND DOES NOT DEPEND ON DIFFERENCE OF COMPLEXION."

Keep it Before the People!

That ABRAHAM SANBORN has said that SLAVE OWNERS HAVE THE RIGHT TO BRING THEIR SLAVES INTO THIS STATE AND HOLD THEM HERE AS SLAVES as long as they themselves remain,—thus endorsing the doctrine of Judge Kane. 1stf

Republican Doctrine!

Extracts from the Resolutions of the Republican Convention

Resolved, That the Constitution confers upon Congress sovereign power over the Territories of the United States, for their government—and that in the exercise of that power it is the right and the imperative duty of Congress to prohibit in the Territories those twin relics of BARBARISM, SLAVERY AND POLYGAMY.

Sham Democratic Doctrine!

Extracts from the Resolutions of the Cincinnati Convention of June 5 1856

Resolved, That the Democratic party will resist all attempts at renewing in Congress or out of it the agitation of the slavery question, *under whatever shape or color the attempt may be made.*

Resolved, That the American democracy recognizes and adheres to the principles contained in the organic laws establishing the Territory of Kansas and Nebraska * * * particularly in affirming *non-interference by Congress with slavery* in State and Territories * * *

We affirm the application of this democratic principle to the organization of Territories and to the admission of new States WITH OR WITH OUT DOMESTIC SLAVERY.

Buchanan Accepts the Platform

Extract from Mr Buchanan's Speech in reply to the Keystone Club of Philadelphia June 7 1856

I have come forward upon a platform of which I must be the only conspicuous candidate. I shall not speak for me. But as the representative of the great Democratic party and not as a mere James Buchanan *I have spoken in conformity to and in support of the party.*

Firemen Remember

That the Republican party are in favor of keeping Slavery just where it is—not allowing it to extend beyond where it now exists. We understand that gentlemen in this city have been representing that if Fremont is elected the Slaves will be all set at liberty and that our State would be filled "chuck full of niggers" if they knew it. If Fremont is elected we shall have no more slave territory and the Slaves will be kept where they are. But if Buchanan is elected slavery will not be prohibited in Kansas nor in other Territories, but slavery will be forth with driven out all free white paper white labor on the spring.

What do the Whigs say to this?

The Bangor Democrat of yesterday says that the DEMOCRATIC electors of the 6th Congressional District have in ABRAHAM SANBORN Esq. a candidate for whom they "can give their undivided support with the assurance that they are basing their opposition on WHO IS ANIMATED BY THE SAME PRINCIPLES AND CHERISHES THE SAME PRINCIPLES AS THE PATRIOTS OF 1776."

Many of our friends have sent us excellent matter for publication a great deal of which it is utterly impossible for us to find room for. We do the best we can with the space which we have. Our paper is most entirely given up to politics, and still there are columns of matter every day which would do good, that we desire to get in, but cannot. We are compelled for the same reason to let many things go by unnoticed. Would our friends only do so more.

Are you Ready for the Contest?

This is the last occasion on which we shall be able to address the readers of our weekly paper, previous to the State election. We trust they are all ready for the important contest of Monday next. How important that contest will be to the cause of freedom in this Union may not be realized by all until after the battle is fought and its effects seen.

We feel, however, that vast results are depending upon this election in Maine. It is regarded, and regarded justly as the turning point in the Presidential campaign. And not only so, it is the turning point in the cause of freedom. Let those who are opposed to slavery, and IN FAVOR OF SUSTAINING FREE LABOR IN THIS COUNTRY come up boldly, manfully, and unanimously to the work on Monday next, won the battle in Maine for freedom, and THE DAY IS WON throughout the Union. On the contrary, if the hosts of slavery and Buchanan should triumph, the State election in Maine the fight would be a hard and doubtful one for November in the nation. The effect upon other States would be injurious for the Republican cause, and it might be the means of giving a great and permanent victory to the slave power. LET EIGHTEEN HUNDRED AND FIFTY-SIX SEE THE VAST CENTRAL TERRITORIES OF THIS UNION, and by the means of fixing the policy of slavery upon the American Union, as it did in 1820 exist.

MEN OF MAINE! SHALL THIS BE SO? Shall the vote of your State be the means of enthralling the last hopes of freedom in this Republic. Whether the answer from every true and noble heart—MAINE WILL DO HER DUTY!

Let every man, then, *work while the day lasts.* Work in individually with your doubtful neighbor. Explain kindly to the faith of freedom. Let hand have fallen, and he is sure to go right. See to it that some contemptible, sneaking tool of the slave oligarchy is not poisoning the ear with base falsehoods and base misrepresentations. *A case or two of money, forced into politics by money sent into Maine by the slaveholders of Washington*, are "questions," like Satan, at the ear of every wavering doubtful voter in the ranks of freedom, therefore BE WATCHFUL—BE VIGILANT—Strengthen the faith of new converts, and guard them against the falsehoods and misrepresentations of the enemy.

See to it, also, that every Republican voter in the town is polled—that his votes are lost by neglect be not numbered upon the check lists and see to it that the opposition put no names on illegally. Get your votes in soon—see that they only votes are cast spurious votes upon any of your friends.

ILLINOIS MAN IS A MINUTE MAN IN THE CAUSE OF LIBERTY, for the last week and the next is ours!

WE KNOW that the freemen of Maine will never permit the election to be carried against them by THE MONEY OF THE SLAVE HOLDERS. This is all that our enemies depend upon. For all that gives them any hope of victory. *Let us put a deadness end sum of the city against money from abroad as they* AS OUR BRETHREN DID said the valley is ours!

Another Monstrous Lie.

To show how utterly reckless and desperate the Bangor Journal has become, we have only to quote the following from the Journal of the last issue.

"The Republican Convention of this county nominated their approval of the course of Mr Israel Washburn and thus made it the main issue in the contest."

Now what do people think of such monstrous statements as these coming from respectable—when the Mr Israel was not even named in all the proceedings of that Convention and the only resolve was that there was NO OTHER ISSUE except that of FREEDOM?

The Journal cannot shield itself from the charge of falsehood by saying it means the vote for the candidates. It WANTS TO DECEIVE ITS READERS on the one thing that such resolutions were really passed.

Laboring Men Turned out of Employment for their Principles.

On the 10th ult., we stated, under the impression that we had been informed that all sailing vessels of this city had discharged one or more of their workmen for putting up his handkerchief on a pole on the day of the Republican Convention.

We mentioned no names but in the Bangor Journal of Sept 1st, Mr Phineas Bachelder takes the charge to himself and makes a statement which he calls a denial of it. As we read it Bachelder does not admit the fact of discharge, although denying the motive. He says the young man referred to "put his handkerchief upon one of the stake poles of the building, and entertaining who put it there *I directed him to take it down.* He did not appear to like it, and I told him if he was dissatisfied, HE MIGHT LEAVE AS SOON AS HE HAD A MIND TO."

And the young man left of course, as any young man of spirit would do, without waiting to be actually kicked out.

The fact is he was told to take down the flag or leave—and he replied I WILL DO BOTH SIR!"

We should call this a discharge, even taking Mr Bachelder's own account of the transaction—and a discharge simply and only because Mr Springer put up his handkerchief. *I will make it appear to take it down.* Mr. Bachelder's hard assertions are statements we think.

NATHANIEL C DERING, Esq., of Hampden is nominated by the Republicans, as a candidate for Representative. It was a very large caucus. One hundred and fifty-seven votes were thrown.

FREMONT AND DAYTON FLAG. On Tuesday evening a 6 o'clock the citizens of Orrington will raise a beautiful Fremont and Dayton Flag in Orrington Corner. There will be good speaking on the occasion. Orrington is all right.

Mr. Washburn's Letter of Acceptance.—The Action of the Republicans on the Army Bill.

The following letter from ISRAEL WASHBURN, Jr., in reply to the notice of his nomination has been delayed some days in its reception. It is not however, too late for publication. We trust every voter will read it.

WASHINGTON, Aug 22, 1856

GENTLEMEN I have received, this evening, your letter of the 19th instant, informing me of my unanimous nomination by the Convention, this day held at Exeter, as a candidate for Representative in Congress from the 5th district in Maine.

I accept the nomination, with a deep sense of obligation and gratitude to my fellow citizens for this renewed expression of their confidence. My record is before them and from that—which I trust is neither doubtful nor inconsistent—they will learn the principles which will govern and the spirit which will animate me in their Representative, in the event of my election.

I had hoped to be in Maine before this time, there to give an account of my stewardship to those whose partiality and kindness has placed me, for the last five years, in this position of honor and responsibility. But the Proclamation of the President of the United States convening a special session of Congress to act upon the Army Appropriation Bill which failed to pass both Houses at the regular session arrested this purpose, and may wholly deprive me of an opportunity to address my constituents before the election. Permit me therefore, to say a few words in reference to that Bill, and in explanation of the causes of its failure between the two Houses.

Among the functions of the House of Representatives in that of originating general appropriation bills as this class belongs the bill making appropriations for the support of the army of the United States. The usual practice of the House has been to include in such a bill contained all the necessary appropriations, some one hundred millions of dollars, which was seasonably passed by the House. Attached to one of the paragraphs of the bill as an integral part thereof, was the following clause:

"*Provided*, That no part of the military force of the United States for the support of which appropriations are made by this act shall be employed in the enforcement of any enactment of the body claiming to be the Territorial Legislature of Kansas until such enactment shall have been affirmed and approved by Congress, but this proviso shall not be so construed as to prevent the President from employing such a public military force, but it shall be his duty to employ such force to prevent the invasion of said Territory by armed bands of non residents, or any other body of non residents, acting or claiming to act as a *posse comitatus* of any officer in said Territory in the enforcement of any such enactment and to protect the persons and property thereof, and upon all national highways leading to said Territory, from all unlawful searches and seizures, and it shall be his further duty to take efficient measures to compel the return of and withhold all arms of the United States distributed to or to said Territory in pursuance of any law of the United States authorizing the distribution of arms to the States and Territories."

To this clause was appended the vote of the bill as passed the House of Representatives. The House as the branch of the Legislature whose right and duty it was to originate the bill deemed it wise and necessary to incorporate therein the following proviso. It need a constitutional right to do so. The power to appropriate money to supply the wants of the army implies the power to impose needful and constitutional conditions and limitations. The House of Representatives—the people's own House—holds the purse strings of the nation and when they deem it their duty to withhold the means of the people against executive usurpation it is sacred.

The House had seen that enactments had been made in the Territory of Kansas by a body of men claiming to be the Legislature of that Territory (but which it had ascertained, by evidence taken on the spot on its own authority, was not such in point of fact) the most odious and atrocious the unjustifiably wicked and sanguinary that have been written on the statute book of a civilized people for centuries—enactments which put few men, who live in the North or in the South, are bold enough to defend. It had been that these spurious and infamous laws had been recognized by the President as valid and binding, and that he had determined that they should be enforced, if necessary, by the military power of the Republic, that he employed the army to break up and disperse a peaceable and orderly assemblage of the people, convened for the purpose (in substance and effect) of exercising their constitutional right of petitioning Congress for a redress of grievances.

Under these circumstances the House of Representatives appealed upon the Army bill the provision I have quoted. It had no desire to break down the Army or embarrass its legitimate operations, as the votes which it promptly gave for all necessary appropriations clearly demonstrate, but it felt that it was a duty which it could not properly, to guard against its being used for the destruction of the lives of American citizens innocent of crime—hence the provision for their protection. The bill was sent to the Senate, and having been amended by that body by striking out the proviso, was returned to the House of Representatives and its concurrence in the amendment requested. The House some weeks previously had by a large majority decided that the so called laws of Kansas were no legal enactments—(for this was the true and only issue upon the resolution declaring that Whitfield was not entitled to a seat as Delegate from the Territory of Kansas.) The Senate must have perceived that the House of Representatives, with its expressed views in regard to these laws, could not concur in the amendment without abandoning the position it had already deliberately taken, and proving recreant to what it understood to be its duty. Nevertheless it demanded such concurrence as a condition to effect to the House, "Agree to our amendment or the bill shall be lost, so sure will he in maintaining your own bill or shall not become a law." Although it is true that we have voted all the necessary supplies for the army, we will not touch the bill unless you will continue the power to the President to use the army for the purpose of enforcing the Kansas laws—illegal and abominable as you believe them to be—and killing your fellow citizens in Kansas as they be your bold neighbors and friends. Sooner than we will see the President deprived of this power, let the bill fall, let the army suffer, let the worst happen that can happen.

Here was a plain and indisputable attempt by the Senate to coerce the House of Representatives to vote against the sense of duty. What did it comport with the honor the dignity and the patriotism of the House of Representatives that its members should do on this exigency? Were they to yield a suitable and necessary provision of their own bill under menace of the Senate that if they refuse the bill should fail, and the army be left unprovided for—to disregard the unconstitutional legislations, and permit a precedent to be established which might be used hereafter to break down the power and dignity of the House? Or were they steadily and firmly to maintain the rights and defend the vital, constitutional privileges of the House, and through such fidelity protect their outraged fellow citizens in Kansas from the vengeance of border ruffians acting through the army of the United States?

It has been objected in the Senate that the proviso contained independent legislation and that it was improperly attached to an appropriation bill. A reference to the army bills for the last twenty years will show how entirely groundless is this objection—and besides the proviso was strictly germane to the bill, it was merely a limitation to a grant of money, the whole of which might have been denied.

The Resolution Endorsing Pierce

A Plank Suppressed.

Many of the Buchanan papers, the Boston *Post* among the number in publishing the Cincinnati Platform suppressed the following plank, which was unanimously adopted by the Convention:

Resolved, *That the Administration of* FRANKLIN PIERCE *has been a* CONSTANT *Democratic principles and therefore true to the best interests of the country in the form of the union it administered, he maintained the honor of the nation, and we reclaim* FOR OUR EQUAL *IEDAMINATION OF HIS MEASURES AND MOTIVES.* —*Jeff republican*

This resolution was not published by the Bangor Journal nor by the Bangor Democrat.

Two Characters of Hannibal Hamlin drawn by the Bangor Journal.

The Bangor Journal of June 14th, 1856 contains the following article

SENATOR HAMLIN. Senator Hamlin will to-day formally withdraw from the Democratic party, and at the same time resign his seat in the Senate of the United States, which he has served with SO MUCH CREDIT TO HIMSELF AND HONOR TO THE COUNTRY FOR SEVERAL YEARS. Mr Hamlin's very early career in this place being a *Senator of Maine, one of the first two elected States in the Union, and passing the three years* CAPACITY and INDUSTRY, which he was on a HONORABLE REPUBLICAN as *a very* ATTENDED TO and which *a* THE INTERESTS OF HIS CONSTITUENTS and OF THE STATE, *is not* suff

The Bangor Journal of August 19 1856 *two months and a half days after* the above is rearranged in its columns, speaks thus of the same Hannibal Hamlin:

But they (the people of Maine) will not throw out a faithful servant who has ALWAYS BEEN REGARDED OF THE INTERESTS OF THIS STATE—[name illegible] who has ALWAYS SUSTAINED THE RIGHTS AND HONOR OF THE STATE—[name illegible] who has ALWAYS SUSTAINED THE VIOLATED AND TRAMPLED UPON RIGHTS AND POLITICAL RIGHTS and admitted them promptly upon every occasion that has arisen.

Comment upon such bold contradictions and unscrupulous vilification is needless.

Another Lie Nailed.

A correspondent of the Augusta Age having charged that the Assistant Land Agent of 1855 (Mr Charles J Talbot) received $1 1 5.96 for six months service while in previous years $1000 per year only had been paid, Mr Talbot has sent to the Age a communication stating that as a laborer only and not the Agent of the public he has a right to charge the Land Office for the time he was employed.

The following is a paragraph or two:

The Land Agent's report is made annually on the last day of the year consequently that made by Mr Clark embraces the entire year 1856 although he only three months of the time Mr Clark was the Land Agent. Of the year 1855 as reported on by Mr Clark I discharged the duties of Clerk under him from March 27 to Dec 31 a few days over nine months, and for my services received a salary *at the rate of* $1000 per annum and *not at cent more*.

The books in the Land Office are kept by double entry, and the sums paid out by the Land Agent for such services as he needs in the Land Office are charged in the account of Assistant Land Agent. The item $1 1 5 96, referred to by your correspondent includes not only the amount paid to me by Mr Clark, but also *the sum paid by Mr Gatchell to Judge Daniel Sanborn* for three months in the office as his Clerk and other small bills paid for services under the Land Department by other persons prior to Mr Clark's commission—making in all, as entered during the year 56 in the account on the books denominated "Assistant Land Agent, the aforesaid item of $1 1 5 96.

The same correspondent says that Mr Talbot spent the entire gubernatorial canvass of 1855 in Franklin county, riding about and electioneering for this—Mr Talbot replies that he obtained leave of absence for a few days in August to attend to the wants of his insane wife and dependant children, and that he was then sick while absent, and confined until a week before the election. He says

I made provision for the discharge of my duties during my absence *free of expense to the State* and not one dollar was paid by Mr Clark for clerk hire to any person save myself, to my recollection, from the time I went into the office March 27, to the day Mr Walker was qualified as his successor. The records of the Land office bear inspection will be found to be in my hand writing for the whole time Mr Clark was Agent, except the short period I was in Franklin county under the circumstances already stated.

New Publications.

The Life of George Washington by Washington Irving. Volume New York: G P Putnam & Co. 1856.

The above volume is the first of a series of four by the Chief Magistrate of the United States and is published by Putnam & Co of this city. The work which is to be issued in four volumes (which will be sold with a fine Portrait of General Washington) carries us from the time Washington first took command of the Army of Revolution at Cambridge to the close of the year 1776, a period which presented to the great leader the darkest hour in the history of the country. The style of the work is fine and the publishers have done their part well.

PUTNAM'S MONTHLY for September has been received from Messrs A W Burgess & Co. Best wishes to the new enterprise.

It contains eleven number. The leading article is upon the subject of the Fine Arts in connection with the report of the Art Union of London, and is replete with valuable and original information.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systematized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality.

Any one interested can examine specimens of the work at the factory, near the Rowe Place, or at the store of M. S. Jackson, in Exchange st., and at either place any article may be obtained in large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old and slow and imperfect methods.

ARNOLD'S COMBINED

FOOT-STOVE, LANTERN,

.....AND.....

NURSE-LAMP.

ALBERT MOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable inventions, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute, to warm and dry the feet in the most severe winter weather, and will be found to be an unexceptionable article in travelling. It is heated by oil, alcohol, or any fluid burning, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get smoked, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For warming feet & c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a foot-iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conceived by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be to tell you what our readers can all see at once for themselves.
